**\$1,000**

Mike Gordon, Marcus  
Sam, Richard Weeks

- Innovative approach to reducing labor for fabricating aluminum air plenums at data center

---

**SMACNA Arizona is seeking the most innovative sheet metal related industry solutions for 2011. The innovative solution must have been part of an Arizona project. This could be any solution created for an in-house challenge, an industry challenge or a job specific challenge.**

**The winning entry will receive a \$1,000 cash prize that will be announced and presented at the annual SMACNA Arizona golf tournament on April 27, 2012.**

**Entries are due by April 6, 2012.**
